

Welcome to the Honingklip 4 x 4 Route

KINDLY READ ME FIRST

When you start the route make sure that you are facing the sea/lagoon – the first route marker will be in front of you.

We have two routes:

The “FUN” route is 20km and is a grade 2/3 and will take approx 4hrs to complete – Please follow the **GREEN** arrows. There are two technical sections that are indicated by **RED** arrows. The **RED** loops rejoin the **GREEN** route.

The “Scenic” Route is 20km is a grade 1 / 2 and will take approx 2-3hrs to complete. The Scenic route is marked with **ORANGE** arrows.

There is an **obstacle course** for those who wish to test their skills. All obstacles can be bypassed if you are not comfortable trying to do them.

Once you return to the start point at our community hall, please use the toilet facilities before following the **BLUE** signs to the dam where you can braai in the designated area. You may swim at your own risk. The dam is deep, so if there are children, make sure you have the necessary safety equipment for them.

We hope you will enjoy your time at Honingklip Farm and the route that mainly runs through Ruwami, our private nature reserve. If you are lucky you might spot a Rheebok or two. We frequently notice Blue Cranes near the dam, as well as wild ducks. Try not to disturb them. We hope that they will get used to the vehicles!

On the lower slopes of the farm we grow pomegranates, olives and proteas. On the higher slopes in the nature reserve we have a number of scarce and endangered species. Please enjoy them and do not destroy them. When you reach the top boundary you will reach MTO Forestry Department. Please do not be tempted to ride there as you can be prosecuted.

On our reserve you will get wonderful views of the Elgin Valley, the Worcester Mountains and the Caledon district. Towards the ocean you look at Babylon's toring which forms part of the Hemel en Aarde Valley, towards Stanford and Gansbaai.
